AT PURDUE UNIVERSITY

CIBER Universities

The Centers for International Business Education and Research (CIBERs) were created under the Omnibus Trade and Competitiveness Act of 1988 to increase and promote the nation's capacity for international understanding and economic enterprise. Administered by the U.S. Department of Education under Title VI, Part B of the Higher Education Act of 1965, the CIBER program links the manpower and information need of U.S. business with the international education, language training, and research capacities of universities across the U.S. Thirty-one universities designated as CIBERs serve as regional and national resources to business, students, and academics. Together, the CIBERs form a powerful network focused on improving American competitiveness and providing comprehensive services and programs that help U.S. businesses succeed in global markets. Additional and updated information about Faculty Development Programs, Conferences, Papers, etc. can be found at <http://ciberweb.msu.edu>. Program Administrator: Susanna Easton, IEPS, U.S. Department of Education, 1990 K Street NW, Sixth Floor, Washington, D.C. 20006-8521; Phone: (202)502-7628; E-mail: susanna.easton@ed.gov; <http://www.ed.gov/about/offices/list/ope/iegps>

INTRODUCTION

Faculty Development in International Business (FDIB) programs are offered by the Centers for International Business Education and Research (CIBERs) to faculty members at all educational levels to enhance their ability to teach issues and concepts of international business. The FDIB Directory contains current information about FDIB events, including a wide range of programs of differing formats for pre-college and college faculty conducted by thirty-one CIBERs across the United States. Programs encompass a variety of topics related to internationalizing business education, ranging from general themes of global interdependence to business language education, business implications of global terrorism, and economic globalization issues. Most programs take place within the United States, but a number are held overseas.

CIBER Programmatic Requirements

The Centers for International Business Education Program (CIBER) was created under the Omnibus Trade and Competitiveness Act of 1988 to increase and promote the nation's capacity for international understanding and economic enterprise. Administered by the U.S. Department of Education (under Title VI, Part B of the Higher Education Act of 1965), the CIBER program has linked the manpower and information needs of U.S. business with the international education, language training, and research capacities of universities throughout the United States.

The programmatic requirements of the legislation mandate that every Center will provide a comprehensive array of services and that funded Centers will:

- ◆ Be national resources for the teaching of improved business techniques, strategies, and methodologies which emphasize the international context in which business is transacted;
- ◆ Provide instruction in critical foreign languages and international fields needed to provide an understanding of the cultures and customs of United States trading partners;
- ◆ Provide research and training in the international aspects of trade, commerce, and other fields of study;
- ◆ Provide training to students enrolled in the institution or institutions in which a center is located;
- ◆ Serve as regional resources to local businesses by offering programs and providing research designed to meet the international training needs of such businesses; and
- ◆ Serve other faculty, students, and institutions of higher education located within their region.

This directory is updated periodically and available on-line at <http://ciberweb.msu.edu>. For further information concerning these programs, please refer to the corresponding contact information in each entry.

Gregory C. Cutchin, Ph.D.
Managing Director, CIBER
Purdue University
403 W State Street
West Lafayette, IN 47907-2056
Tel: (765) 494-4467, Email: Cutchin@purdue.edu

This directory contains current information on Faculty Development Programs for 2006-2007. Most CIBERs will also hold additional conferences and workshops on international trade and commerce and business language education. This information is not representative of all the faculty development programs offered by CIBER schools. Please contact the CIBER nearest you for information about additional programs that might be available to you, and check <http://ciberweb.msu.edu> for conference schedules.

Information on CIBERs featuring faculty development programs is available online and updated periodically through the national CIBER website: CIBERWeb at <http://CIBERWEB.msu.edu/>.

The Michigan State University Center for International Business Education and Research (CIBER) maintains CIBERWeb. One important feature of CIBERWeb is the one-stop-shopping approach for users to find activities taking place at each CIBER, historically, now, and in the future. Beyond the wealth of information on CIBERWeb, visitors can also find easy access to the web sites of the individual CIBERs.

As such, CIBERWeb serves as the "hub" for all CIBERs and their programs, activities, and products ranging from workshops/conferences (events) to publications to online resources to research reports. The site is designed with multiple points of entry, addressing each user's main interest. The categories of activities are Research, Foreign Language Development, Business Outreach, Faculty Development, Academic Program Development, and Study Abroad. CIBERs reach out to target audiences by holding events (conferences, workshops, speaker series, etc), distributing publications, disseminating online resources, and providing access to unpublished research in the areas of international business. The CIBER activities address but are not limited to the following topics:

- 15 Year Report on CIBER activities
- U.S. Competitiveness in Global Markets
- K-12 Education at CIBERs
- National Security Projects at CIBERs
- Internationalizing the Business Curriculum
- Less Commonly Taught Languages
- Faculty Developments Programs for Faculty at Non-CIBER institutions
- Annual Leading Edge Projects

The CIBERWeb also has archives of earlier CIBER publications
